KOVERA LABS

CERTIFICATE OF ANALYSIS

REPORT # KVR-2026-149482

Client: Axion Labs

Certified: 10/10/2026

This Certificate of Analysis certifies that the sample listed herein was tested by Kovera Labs using validated analytical methods and was found to meet the stated specifications at the time of analysis.

SAMPLE INFORMATION

Product	Cagrilintide	**Form**	Lyophilized Powder
Batch	CGL5-26I1	**Labeled Qty**	5 mg
Cap Color	Green	**Crimp Color**	Silver

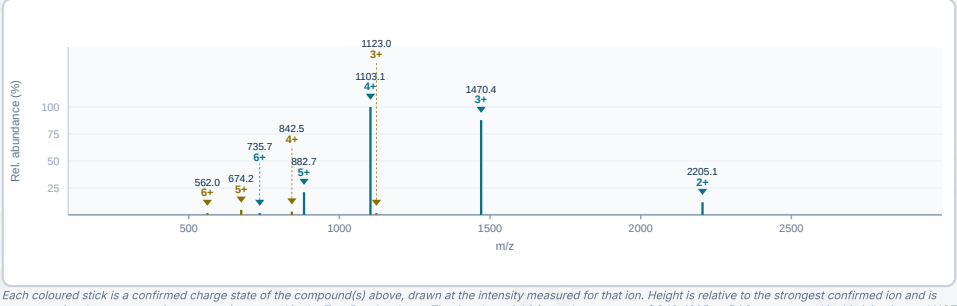

TEST RESULTS

	REFERENCE STANDARD	RESULT
Purity	(>98%)	99.603% ✓
Net Content	(~5mg)	5.32 mg ✓
Identity Confirmation (LC-MS)	(Cagrilintide)	Cagrilintide ✓

MASS SPECTRUM

ESI + mode, MS1 centroid Charge states confirmed **5**

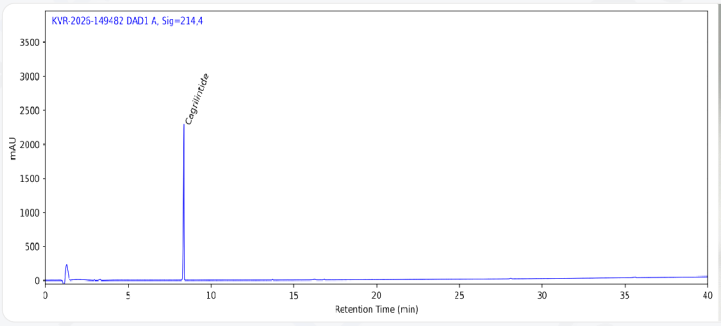

Cagrilintide 5 ions **CJC-1295 no DAC - additional compound, not ordered** 4 ions

Each coloured stick is a confirmed charge state of the compound(s) above, drawn at the intensity measured for that ion. Height is relative to the strongest confirmed ion and is not proportional to concentration; content is reported in the Test Results above. The 4 amber stick(s) are charge states of CJC-1295 no DAC — measured in this injection and NOT an ordered component of this product. That identification rests on the compound's own predicted charge ladder rather than on its mass alone; as with every stick here the height is signal and not a quantity, so it does not state how much is present.

CHROMATOGRAM

Method: RP-HPLC | Column: C18 | Detection: DAD @ 214 nm
